FRAUD PROTECTION

Brella adds another layer of protection against fraud. Brella can immediately alert you to potentially fraudulent activity:

- A debit purchase for more than an amount you specify.
- Any card-not-present debit transaction (telephone orders, Internet orders, mail orders, etc.)
- Any suspicious or high-risk transaction that occurs on your account.
- Set alerts for three different transaction types:
 - Transactions over a specific dollar amount
 - Internet or phone transactions
 - Transactions outside of the U.S.

Early warning is the key. When you are aware of suspicious activity, contact CUSB Bank right away by calling 1-800-397-9964.

INSTANT TRANSACTION CONTROL

The transaction control feature gives you more control over your accounts. You will be able to pause your card, without affecting previous transactions, if your card is stolen or goes missing. With the quick tap of a button, this optional feature allows you to block or unblock your card, saving you money. You can add multiple cards using this app. For example, add your spouse or children's cards to your app to help protect them. This fast and simple security feature increases safety and gives you peace of mind knowing you can turn your debit card off and on with a click of a button.

ATM LOCATOR

Locating an ATM has never been easier! No matter where you travel, you are able to locate the nearest ATM.
